A must for the collector or enthusiastBy BC ChandlerA huge work that has been very well presented. Much information together with photos both in colour and bw. The book is presented in a cellophane wrapper and printed on quality

paper. Not all artists are listed but whether that is due to size or cost I don't know. Bearing in mind there are two further volumes dedicated to jewellery (A-L and M-Z) that issue may have been addressed. My only criticism is not with the book(s) but withwhy not make these available on the uk site!0 of 0 people found the following review helpful. Necessary Turquoise and Picture Bible Provides a ton of Information!!

This volume profiles over 1,200 Indian jewelers from all tribes over the past two centuries. The text is illustrated with over 2,000 photographs. This book was created with the cooperation of Indian artists. Through artist surveys, archival research and personal interviews, information was collected in 25 categories: including the artist's tribe, clan, active years, type of jewelry, lifespan, family relationships, education, teachers, students, awards, exhibitions, collections, forms, techniques, materials, favorite designs, and publications. Websites and email addresses were listed when possible. Many completed a personal statement, "I enjoy creating artwork, because..." Some wrote or narrated autobiographical statements.
