Anyway any one who wants to be a collector or who might get a handfull of old knives from a relative you better have one of these. I had a friend bring me three knives that his grandfather had left him several years ago. I looked them up in the seventh edition and found out they were worth about \$6000.00 I told

him they were worth \$600.00 offered to buy them and he was thrilled to death. No I told him the truth and helped him sell them. Now he thinks I'm a genius. That's a true story. 1 of 1 people found the following review helpful. helpful By BRENDA WHITAKER This book is the bible of knife information.
