Edward Faber : American Wristwatches: Five Decades of Style and Design (Schiffer Book for Collectors)

before purchasing it in order to gage whether or not it would be worth my time, and all praised American Wristwatches: Five Decades of Style and Design (Schiffer Book for Collectors):

0 of 0 people found the following review helpful. A lot of classics.By Sue PowellWristwatches are a world of their own and this gives a really nice veiwWristwatches are a world of their own and this book gives a nice view of a lot of classics from the past. Bought this for my son who said it gave him a lot of info on watches from another time.0 of 0 people found the following review helpful. If you like American wristwatches, this is a great book.By clockguyGreat book with lots of pictures and well written history of American watch companies.If you collect American

wristwatches, you won't be disappointed in this book.0 of 0 people found the following review helpful. Five StarsBy
Ronald J.Great.

Introduced into a skeptical American marketplace early in the twentieth century, the wristwatch soon caught the consumer's imagination. It was not long before American watch manufacturers adopted the form and brought their ingenuity and creativity to bear on the style and design of the wristwatch. Fifty years of innovation and beauty follow, and this beautiful book brings you the story in word and picture. Illustrated with over 600 full color pictures, the authors have traced the history of the American wristwatch. Their original research brings life to some of the persons who influenced its development. Design periods are defined and the watches they engendered are amply illustrated giving the reader knowledge that is valuable, both for the appreciation and the collecting of these wristwatches.
