It is informative but the information is now out of date.0 of 0 people found the following review helpful. Great book!By lively411This book came in excellent shape and is full of great information for every gun collector. Definitely a great purchase!11 of 12 people found the following review helpful. Comments on **The Collector's Guide** by John E. TraisterBy A CustomerThis book, while containing helpful information to the beginning collector, suffers from very poor organization, excessive focus on modern reproductions of antique firearms, and numerous errors in pricing. Overall, the book lacks authority.

Years in its preparation, this updated guide covers a vast spectrum of pre-1900 firearms manufactured by U.S. gunmakers as well as Canadian, French, German, Belgian, Spanish, and other foreign firms. Offers detailed

descriptions, dates of production, and current values. Illustrations.
