I own the original and so ordered all of the series. Paper quality went downhill....editorially it is terrible; they put tiny photos and left way too much white space on many of the pages....the quality of the photos themselves were questionable...some were completely blurred. I get eyestrain looking at these books.1 of 1 people found the following review helpful. This is a beautifully done bookBy QuirkyThis is a beautifully done book, with plenty of inspirational eye candy. An interesting overview of modern jewelry, without getting too abstract in the designs. I would recommend this to any student of jewelry making or collecting.1 of 1 people found the following review helpful. Amazing book, with a ton of amazing workBy Jelveh JaferianAmazing book, with a ton of amazing work. So prous to have my work included with my collaboration partner. Thank you.

The pulse of today's jewelry art is captured in 400 beautiful colorphotos demonstrating today's top levels of mastery. Presented togetherwith insights from more than 65 contemporary international jewelryartists, these pieces of body-adorning sculpturerings, collars,brooches, headpieces, and other adornmentsare varied, surprising, andas multifaceted as today's art world. The makers' own explanations ofthe methods and inspirations that guide their work offer further ideas.Everyone who works in the jewelry field or who enjoys admiring orwearing jewelry will find this an invaluable reference and a sourcebookfor future creativity.
