The book arrived in more battered condition than described, but the text itself is excellent.By Gregory C. BrownThe condition of the book was worse than described by the seller. The dust cover was torn severely and I was very disappointed in the seller for that.On the other hand, the text itself is excellent, and well worth the read for anyone who truly wants to learn from a world expert in Asian art and antiques. Plus, Mr. Mason is a fine human being to boot!0 of 0 people found the following review helpful. Not very helpful. Does not show ways to distinguish ...By dlhNot very helpful.
