Beautiful resource, lots of colorful historyBy RLMIf you want to know about Aurora slots cars, the history of the company, or just rekindle your memories of racing the little suckers as a kid, this book is superb. From the development of the Vibrator cars to the refinement of the T-Jets and later products, this book colorfully charts the development and rise of the company, including its later missteps and struggles. Very informative and a good read.1 of 1 people found the following review helpful. Slot Car Hobbieist Must have!!!!By kevin kearnsThis is one of about 3 books a slot car enthusiast must have. It has the complete history in detail of the rise and fall of Aurora. It goes into detail on the vibrator cars the T-jets and then AFX cars as well as larger scale slot cars. It is a must read for slot car fanatics. It has a price guide for all slot cars and some great color illustrations. I

highly recommend this book for anyone just getting into this great hobby.. It was priced right with a very fast delivery and was as described. I highly recommend this seller.....KCK0 of 0 people found the following review helpful. I enjoyed reading this bookBy Clint SmithI enjoyed reading this book, if you are involved with slot cars and especially aurora its a well worth read

Aurora slot cars are legendary. These tiny racing cars captured and held the imagination of American kids for over a decade and their unparalleled popularity made them coveted Christmas presents between 1960 and 1977. Aurora slot car races were staged everywhere, from home basements to the Johnny Carson show! Relive those competitive days with this exciting book filled with hundreds of photos of slot cars plus engaging text and background information. Here are Thunderjets, AFX Flamethrowers, Dragsters, Super Speedsters, and more, reproduced in 1/24, 1/25, 1/32, and 1/48 scale. The informative text provides readers with the Aurora company history, and detailed information on colors, model variations, and prices. An extensive price list and photo cross-reference index is included. Learn to recognize them, then collect them all!

About the AuthorThomas Graham is Professor of History at Flagler College in St. Augustine, Florida. He grew up building Aurora model airplanes in the 1950s and raced Aurora slot cars with his kids on the living room floor in the 1970s.
