P08 Luger Pistol (The Propaganda Photo Series)

Guus de Vries, Bas Martens : P08 Luger Pistol (The Propaganda Photo Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised P08 Luger Pistol (The Propaganda Photo Series):

1 of 1 people found the following review helpful. Information I could not find anywhere else. By Green09JeepThe book was interesting and well written. The documentation and graphics were superb. I never knew why the Germans preferred the 9mm over a larger bullet until this book, The reason is the greater penetrating power through the heavy woolen clothes that the combatants had to wear in such cold weather; the 45 being fatter and slower was absorbed in the heavy clothing before it could do its work. 0 of 0 people found the following review helpful. A Luger GreatBy John FleetwoodI am just a 63 year old Aussie who appreciates the magnificent classic Luger pistols, Being a licenced Gun Dealer here in South Australia (for 34 years) I purchased a fantastic 1914 Luger last week, Wow. John 0 of 0 people found the following review helpful. Not reay for prime timeBy J. FrazerGood basic information for a starter book. The whole series needs additional editing as there are lots of translation errors and grammar mistakes.

The third volume of the Propaganda Photo Series, a unique series of books on World War II small arms. Each volume covers all essential information on history development, ammunition accessories, codes markings and contains photos of nearly every model and accessory. The most important quality of the Propaganda Photo Series however, is a unique selection of original German World War II propaganda photos, most never published before. The combination of solid information and original photos makes the Propaganda Photo Series the most extensive and reliable source of German

small arms "in-use", depicting the weapons and equipment as they were actually used. The P08 Luger pistol is probably the most famous pistol ever and has been the subject of a long list of publications. This book gives a concise history of the pistol (including production, codes and markings), its variants and accessories, but also offers new information on stocks, magazines and intended successors. Many new and special pictures.

About the Author Guus de Vries is a historian, specialising in the field of firearms. Thus far, he has written fifteen books on firearms history, mostly together with Bas Martens, and numerous articles for magazines in Belgium, Germany, Finland, the Netherlands, Russia, the United Kingdom and the U.S.A.
