## **Patek Philippe Highlights**

**Herbert James : Patek Philippe Highlights** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Patek Philippe Highlights:

Great quick reference, I plan to buy several books from this "Highlights" series. A+1 of 1 people found the following review helpful. Five StarsBy Larry Ion Jr.Love the book. The photography of the beautiful watches is extremely well done.1 of 2 people found the following review helpful. DissatisfiedBy CustomerSad to say it was a disappointing purchase. The book promised much on paper but I was let down when I got the book.

A young rebel named Antoni Norbert Patek de Prawdzcic fled war-torn Poland in 1832 and embarked upon a career path that led him to watchmaker Jean-Adrien Philippe, inventor of the revolutionary built-in crown winding mechanism. In the 160 years since the pair founded Patek Philippe, the line has remained, without a doubt, one of the most traditional and noble watch manufacturers in the world. This illustrated book couples the most exclusive and beautiful timepieces the Genevan brand has ever manufactured with informative history and alluring photographs. Featured inside are several of the most popular examples from three of the company's outstanding watch families: the uncomplicated but cherished Calatrava collection, the groundbreaking sports line Nautilus, and the cross-generational Gondolo family. Each watch is accompanied by a complete list of technical specifications. This book is an essential acquisition for both casual fans and long-time connoisseurs of the brand.
