Pin Loom Weaving: 40 Projects for Tiny Hand Looms

Margaret Stump : Pin Loom Weaving: 40 Projects for Tiny Hand Looms before purchasing it in order to gage whether or not it would be worth my time, and all praised Pin Loom Weaving: 40 Projects for Tiny Hand Looms:

0 of 0 people found the following review helpful. Pin Loom WeavingBy PattiThis is a great book. It is very useful for people who love pin loomng.It helps you with pin loom techniques, there are are also several patterns, from different style bags to small animals, and home home decor items like baby blanket squares you can sew together.3 of 3 people found the following review helpful. A great guide to Pin loom weaving!By DebbieThis is an excellent book about Pin loom weaving! It brings together all kinds of information on Pin Loom weaving, warping the loom, weaving, joining, and making the looms. There is a myriad of projects that give a starting point for what can be done with the looms. I especially love the mini samplers it shows such an innovative way to use the pieces together.4 of 4 people found the following review helpful. Finally! A great book for this fiber 'craft'!By KatalinaIt's so nice to have such a creative, well illustrated book to go with my little hand looms! I had no idea that so many items could be made with them. So

portable too...I'm definitely going to be a "weavie"!

Tiny palm-sized pin looms are making a comeback. Here is the perfect book to get started with this intriguing weaving technique. 40 appealing projects for everyone As portable as knitting--drop a tiny loom in your bag or keep one in your car Tips and techniques for blankets, bags, and 3-D creations Includes directions on how to build your own pin loom

"[The book contains] 40 different projects you can create from these squares and rectangles. It only requires 7 1/2 yds of yarn to complete a square (think stash buster)...So gather up your hammer and nails and yarn stash and get to it. They are small enough to carry with you. But remember...it is addicting." (Paula Moliver Hartford Knitting Examiner 2014-08-04)"Pin Loom Weaving packs in some 40 projects that use tiny hand looms to produce big results, from blankets and toys to home decor, and even includes instructions on how to build your own pin loom!...Add color photos throughout for a lovely, winning needlework guide!" (California Bookwatch 2014-08-01)"Margaret Stump's new book is an unintimidating journey into the art of weaving...With clear instructions and fun projects, this is a great book for those wanting to dive into pin-loom weaving or who are looking for fun and simple projects for children." (Lauren Meyer Handwoven 2014-10-15)"This book would work well for any dyed-in-the-wool weavers, but in addition to that, may be just the thing to introduce weaving to non-weavers, a chance to dip their toes in the water. Small loom, inexpensive investment: hey--cool cloth! And who knows where that could lead?" (Marilyn Romatka Shuttle Spindle Dyepot 2014-11-01)About the AuthorMargaret Stump is the author of the successful Pin Loom Weaving. She has been creating wonderful fabrics and projects with pin looms for more than forty years. Her work is creative, original, fun, and appealing to young and old alike. A longtime advocate for this vintage art, she is delighted to see so many artists and craftspeople rediscovering the joys of pin loom weaving. She lives in Mankato, Minnesota, and can be found online at www.pinloomweaving.com.
