Very little info on dates of production, or history of the sole company the whole book covers. Unrealistic price guide. I've been told that certain publishers require price guides for their books. Popular Furniture of the 1920s and 1930s is a facsimile reproduction of the Elgin A. Simonds Company's furniture catalog. It presents the reader with an extensive resource of traditional and commercial furniture styles of the 1920s and 1930s. Founded in 1901, the Elgin A. Simonds Company engaged exclusively in the production of faithful reproductions of the finest work of master furniture craftsmen of the past. The company president would spend much of his time researching styles in Europe looking for patterns that were worthy of reproduction by the craftsmen at the Simonds Company. Current values of the furniture have been added to make this book a useful addition to the collector's library. This nostalgic look at furniture styles of the 1920s and 1930s includes over 850 photographs, with important information about size, materials, and the period of the reproduction.
