## Principles of Personal Defense

**Jeff Cooper : Principles of Personal Defense** before purchasing it in order to gage whether or not it would be worth my time, and all praised Principles of Personal Defense:

0 of 0 people found the following review helpful. A ClassicBy DeadeyeClassic tough love from the master pistolero of the 20th Century. If you can't face the facts he presents, you really should stay home and watch TV. The world can be a brutal place, and when you strip off the anecdote you are left with the facts Col Cooper presents. This is not a book on gun technique but one that takes all the varnish off and leaves you with a way to monitor your surroundings and how to react to a threat you identify in time.1 of 1 people found the following review helpful. Information completely

digestible. By Edd Ryan Col. Cooper wrote this "booklet" in simple, "everyday" language. This is one of those "learning aids" that as you read it, you think to yourself "... well that makes sense" or "hmmmm, that's what I thought". 0 of 0 people found the following review helpful. The content is more valuable than gold. By Zac This book should be required reading for every person on the planet who has one, single, passing thought about defending themselves from assault. The book can be read cover to cover in less than one hour but the content is more valuable than gold. Every housewife, working man and teenager MUST read this book if they want to be able to defend themselves. All experts agree that mindset is the most important factor in one-on-one combat between individuals; this book primes your mind with concepts that you MUST consider if you fall into this category. A+++++

This new edition of Cooper's classic Principles of Personal Defense - with a fitting tribute by firearms expert Louis Awerbuck and all-new drawings by renowned illustrator Paul Kirchner - presents his timeless theory of individual defensive behavior clearly, concisely and practically. All free people who aspire to stay that way should read, study and share the wisdom found within these pages. Considered by many to be one of the greatest books on combat mindset and proper defensive mental conditioning ever written, it deserves a place of honor in every library.

"It is a classic, timeless work, encapsulated in a clear, concise, and succinct form.....it should be read, studied, and then periodically re-read and re-studied. No matter how many times you read it, you will always find one more pearl of wisdom that you missed during the last read." --Louis Awerbuck  
About the Author  
The late Jeff Cooper was one of the true pioneers of weaponcraft in the US. His numerous accomplishments include founder of Gunsite Ranch, editor at large of Guns Ammo magazine, winner of the Outstanding American Handgunner award in 1995, Rangemaster Emeritus of the US Practical Shooting Assn. and long-time member of the board of directors of the National Rifle Association.  
Louis Awerbuck is the owner/director of the Yavapai Firearms Academy, a small-arms training operation based in Prescott, Arizona. He served as Chief Rangemaster at the American Pistol Institute and is an adjunct instructor for the U.S. Department of Energy's Central Training Academy.
