6 of 6 people found the following review helpful. Mind-boggling!By J. R. LovederMind-boggling is only half of it. This book is inspirational as well. I have looked at it from cover to cover several times in the few days I have had it and see something new each time. Now I am reading it! Brilliant production and, as I said, inspirational.0 of 0 people found the following review helpful. very new contemporary quiltsBy Ann GrundlerThe quilts are innovative and a nice book to feed my soul. Good value for a hardbound book.1 of 3 people found the following review helpful. Quilt National 2009By LKrausThe quilts pictured weren't inspiring to me. If I had seen the book, I would not have purchased it. I can appreciate the work that went into them, but the whole book felt colorless.

Presented on these exquisite pages are the most innovative quilts being designed today, all selected for this world-class 16th biennial international juried Quilt National exhibition. For more than three decades, the exhibition which travels throughout America has served as a showcase for contemporary quilt artists who expand the boundaries of the craft. Large, spectacular color photographs and the artists commentary will inspire the growing market of home quilters. All the pieces are genuine artworks meant for display, and they set the standard and serve as the model for other art quilts.
