7 of 8 people found the following review helpful. one of the most amazing books ever!!!!By Andrea DoremusThe last, and only other time I wrote , was to exclaim the out of print status of the truly, truly important book, "This Bridge Called My Back." I STILL can't believe it. Once again, I was hoping to find tonight a poem in a book on the web and ....THERE ARE NO REVIEWS for "Re-Weaving the Web of Life!!!," edited by Pam Mc Allister????!!!!I am so shocked. This is/was such a foundational,important compilation of wisdom and inspiration and guidance for us feminist, anti-militarist, anti-colonialist, and nature, as well as community-honoring, women of the 1980's. Ellen Bass's poem, Our Stunning Harvest,is what I was looking for tonight. This poem was so full of truth and naming and wise words, and making connections, and truly identifying the roots of what all the problems were/are. ANd it gave solutions and hope and a pathway to a better future.WHY is it so hard to find? Why is it not taught in all the universities today..... really? - Andrea
