Pretty but not too educationalBy AlisonI bought this book hoping to learn about vintage rhinestone jewelry and the terms I see used in describing it. The book did teach me a little about the history of a few of the vintage jewelry makers but did not help me with the topic overall. There are many beautiful pictures but no rhyme or reason to them and it was unclear to me how to interpret the listed prices. I wouldn't purchase this again.

This full colour jewellery guide captures the history, beauty and value of rhinestone jewellery. It features an extensive collection of desirable rhinestone pieces, including pins, necklaces, bracelets, bangles, earrings and dress clips.
