[PDF] Rolex Watches: From the Rolex Submariner to the Rolex Daytona (Luxury Watches) (Volume 2)

Rolex Watches: From the Rolex Submariner to the Rolex Daytona (Luxury Watches) (Volume 2)

Leonard Lowe : Rolex Watches: From the Rolex Submariner to the Rolex Daytona (Luxury Watches) (Volume 2) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rolex Watches: From the Rolex Submariner to the Rolex Daytona (Luxury Watches) (Volume 2):

2 of 2 people found the following review helpful. Well worth reading and at a fair price. By #62 Harrell This is a very useful and clearly written primer for anyone who is interested in Rolex watches. All of the modern and many of the vintage watches are covered. The compact format is a handy feature. 1 of 1 people found the following review helpful.

Five StarsBy CARLOS CAMINOMUY BUENO1 of 2 people found the following review helpful. Choose something else. Extremely Poor.By Tim BuistI ordered the print version of this book. It looks like this was a digital book that was either printed on demand or printed ahead of time. The printed version is extremely poor. On every page, almost half of the page is whitespace. A larger font should have been used. The content is extremely minimal. The number of spelling errors in the book make it almost unreadable (I am not sure how you can submit this for publication without some sort of spell check). This is a second edition although I can't imagine how poor the first edition was. I suggest spending more money and purchasing "Rolex: History, Icons and Record-Breaking Models" by Mara Cappelletti. I hate to rate something this poor, but there really is not any redeeming quality. There are a few pictures but all are in black and white. The pictures really don't do any justice to the brand and the watches.

This ebook provides you with a lot of purchase relevant background information on the most important Rolex models. With this ebook you will be able to select the watch you want to purchase with ease. You will have a quick overview of the Rolex models and understand why they are there and why some models are considered more important and valuable than others. The Rolex lineup of watches evolved over time. And like every naturally evolving structure it is a bit confusing at the first and often also second look. It helps a lot to understand when and why which model was introduced and what changes it got over time. You also will be able to understand the Rolex vintage collectors' movement, that values old Rolex models much higher than the modern lineup. This ebook tries to sort this out a bit. To understand what watch is meant for what audience, what differences are there between the models, and how the whole thing did evolve since the 1950s, this book will give you some important advice. It is no question if you will find the best watch for you within the Rolex world, if you just know the details we present to you in this ebook. And selecting the right Rolex is always a matter of money. So be wise and learn, before you buy. This is not a Rolex sales catalogue.

In contrary to such an approach we tried to cover all the information that is not given on official websites but nevertheless should make it much clearer, how the Rolex models are connected to each other and what might be the right one for your wrist.
