Good Reference BookBy J. SchaeufeleThis is a great book for anyone who needs to identify the age and size of royal doulton animal figurines. The only disappointment is the pictures are not in color. I would recommend this book as a reference book.6 of 7 people found the following review helpful. Comprehensive, but lacking to the previous edition.By Brian FurnissAfter using the 5th edition for the past two years, I find this one to be more confusing in

identifying different jug styles. Also, I was disappointed to see the removal of the Beswick jugs from the price guide. Kudos, however, to a more realistic pricing scale. While not as good as the previous, the Charlton Standard Catalogue is still the Bible for Doulton jug collectors.

Complete your Royal Doulton Animals collection with the second version of this extremely popular catalogue. Illustrating over 2,000 animals produced from the 1890's to 1998, this guide includes detailed listings of each model and current prices in US, Canadian and UK currencies, making it an essential part of your collection.
