The Stamp Art and Postal History of Michael Thompson Michael Hernandez de Luna

Michael Thompson, Michael Hernandez De Luna : The Stamp Art and Postal History of Michael Thompson Michael Hernandez de Luna before purchasing it in order to gage whether or not it would be worth my time, and all praised The Stamp Art and Postal History of Michael Thompson Michael Hernandez de Luna:

In this handsome and hilarious volume of knockoff postage stamps, artists Thompson and Hernandez de Luna have created a startling and unique work of art. Since 1991, the artist-publishers of Bad Press Books clever and colorful collection have been creating fake stamps that are not only fine art, but have also been successfully sent through the mailmuch to the chagrin of the U.S. Postal Service. In their artistic venture, Thompson and Hernandez de Luna have turned philately on its head and, in the process, have been repeatedly warned to cease and desist by inspectors from the Post Office. But readers can enjoy the richly comic parodies and social commentary implicit in this renegade art without the danger of suffering any consequences. Among the wide-ranging subjects included in this collection are

politics, religion, sex and disasters. In their never-ending quest for the outrageous, they have created bogus stamps from a score of countries from Japan to South Africa, from India to Norway. Their art forms are splendid counterfeits of truly global proportions. Their work has been shown in museums across the country and has also received the stamp of approval from the press.
