The Swatch Collector

Bonellos : The Swatch Collector before purchasing it in order to gage whether or not it would be worth my time, and all praised The Swatch Collector:

this is a catalog from 1998 printed in Wiesbaden Germany. Shows all swatches with detailed information from beginning in 1983 until the fall/winter season 1998. Over 2300 pictures on more than 500 pages. Special boxes for watches that were available only in these packages are shown together with the corresponding watch. Amazing book

for a swatch collector.
