The Unofficial Guide to Transformers: 1980s Through 1990s (A Schiffer Book for Collectors)

J. E. Alvarez : The Unofficial Guide to Transformers: 1980s Through 1990s (A Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Unofficial Guide to Transformers: 1980s Through 1990s (A Schiffer Book for Collectors):

2 of 2 people found the following review helpful. Excellent Book!By KevinVery thorough guide to this time frame of Transformers production. Highly recommended to anyone who had or had even the most vague interest in Transformers. Plenty of clear pictures and of course showing all transformed stages of the robots.4 of 5 people found the following review helpful. Unofficial Guide toTransformers 1980s to 1990s is great!By N. KokThe Unofficial Guide to Transformers 1980s to 1990s is a great book! This book maily talks about the early Transformers toys from the 1980s and 1990s. J. E. Alverz talks through the history of the Transformers when they were early Japanese

Mircoman and Diaclone toys. The book has many pictures of the toys, comics, videos, and other old Transformers memorabilia. J. E. Alverz is a good writer. He tells you everything you need to know about Transformers toys in America. He also writes about Beast Wars: Transformers toys and The Japanese Transformers figures! Buy it! Highly Recommended! J. E. Alverz writes a great Transformers coffee table book! A+0 of 0 people found the following review helpful. ITs okayBy Lone shark...As a collector Its a must have to have books on toy figs to help find pics of figures to see what they look like complete. This book have some great pics. As for history of prodocs... or figures. IDK... Auther try to make this playfull, but maybe at that time it be great but today. No... Still only good for references usage.

This text presents the history of the Transformer, from the early Diaclone, Diacrone, and Micronauts of Japan through the emergence of Hasbro's Transformers creations to the Transmetals and Fuzors of the late ninties.'

About the AuthorJ. E. (Rikki) Alvarez is a Transformers*t expert and has been a professional toy collector for several years.
