Wildly Entertaining Read for any Stamp Collector by Stephen DatzBy Rough CustomerThis is at least the third book on stamp collecting I have read/bought by Mr. Datz. I enjoyed all three books VERY much! It is impossible for me to adequately relate to you here the extent of Mr. Datz ability of entertaining story telling! He is one of the BEST writers of entertaining and educational stories that I have

encountered, and I am a part time writer myself, and I have read hundreds of books, and read many books by authors about the skill of writing. Mr. Datz writes in plain language but is very descriptive of places, people and events in his books. His words paint vivid pictures in your brain as you read them, which enables the reader to envision the place and people in graphic detail. His stories are well written in that they all have a "plot" or logical order and usually have a conclusion that give the reader a "teachable moment" at the end. I place Mr. Datz up with my top 10 authors of the USA, and plan on buying more of his books in the near future, as each one is as much of a treat as finding a mint plate block of 65 cent Graf Zeppelins on sale for ten bucks. 0 of 0 people found the following review helpful. Well written and entertaining throughout, Datz does an outstanding job of story-telling and leaves you wanting for more. 0 of 0 people found the following review helpful. Perfect gift for the stamp collecting fanaticBy Kristine S ArchboldPurchased this as a gift for my dad. I find it difficult to shop for him for traditional "Dad" gifts. He no longer wants shirts, ties, etc. So I searched gift ideas for stamp collectors and found this as a recommended title. had a seller for me and my dad has been quite pleased with the gift.
