The Wood...the Cars...the People: 30 Years of the National Woodie Club

From Turner : The Wood...the Cars...the People: 30 Years of the National Woodie Club before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wood...the Cars...the People: 30 Years of the National Woodie Club:

Celebrate the 30th anniversary of the National Woodie Clu with this one of a kind publication dedicated to the people and the cars of this fabulous organization. Along with extensive interviews from those that were there (and still here!) this book will provide an in depth, retro, folkloric look into the NWC celebrating the wood and metal autos that cruise the highways and byways across America and beyond. This book will feature everything associated with the wooden car from found in a barn stories to the history of major events. This book will also showcase the Woodie Times and

feature many great articles from its inception. Grab this piece of Americana with the National Woodie Club 30th Anniversary Commemorative Volume.
