The World Encyclopedia of Knives, Daggers Bayonets

Dr. Tobias Capwell : The World Encyclopedia of Knives, Daggers Bayonets before purchasing it in order to gauge whether or not it would be worth my time, and all praised The World Encyclopedia of Knives, Daggers Bayonets:

5 of 5 people found the following review helpful. BookBy NICK PORTELLA Beautifully illustrated edged weapon reference for the beginner. It lacks showing the associated sheaths and scabbards for most and gives only the overall length and not blade only length. It can use a better index and a "How to identify" section which could include charts listing pertinent data such as dimensions, materials, markings, edges etc. overall a good beginning for the new collector. 0 of 0 people found the following review helpful. Five StarsBy Customer Great book, lightning fast delivery... Ty 1 of 1 people found the following review helpful. CollectingBy johns66mustang I use this book almost every day in my search for my bayonet collection. It is a great book rate 5 stars

An authoritative history visual directory of sharp-edged weapons blades from around the world, with over 700 stunning color photographs. Detailed history of the development of daggers, fighting knives bayonets, from their origins in the Stone Age to the latest utilitarian creative designs.
