## The World's Most Expensive Watches

**Ariel Adams : The World's Most Expensive Watches** before purchasing it in order to gage whether or not it would be worth my time, and all praised The World's Most Expensive Watches:

1 of 1 people found the following review helpful. AmazingBy DavidberdiI received this book today and I'm truly amazed, the size, paper, presentation and pictures are absolutely stunning. It reviews all the watches that should make that list, even though I missed the holy grail, the Patek Henry Graves, maybe that's because it only covers wristwatches and not pocket, anyway, the feeling about the book is awesome, the only thing that I would change is the title, "the most expensive watches" doesn't bring justice to this amazing pieces, they are much more than their price, they are amazing in every way, look, technic, passion, tradition and craftsmanship, so it should be called "the world most amazing watches".0 of 0 people found the following review helpful. really beautiful bookBy Cathleen GabrysiakI got this for my boyfriend for Christmas. He has a watch collection and since I can't afford another thousand dollar watch for him I got him this. He looked through the whole thing as soon as he opened it, holding up the process of opening other gifts and was in awe of the pictures. The only downside is that he said "this is just a big tease of all these incredible watches I can never afford" lol!1 of 1 people found the following review helpful. This is one of the best books on watches I have ever readBy KJRThis is one of the best books on watches I have ever read. If one is a watch

lover, by all means, get this book. You will not be disappointed.

More than a fashion accessory or means to tell the time, the wristwatch has become a statement of identity; politician or celebrity, scientist or sportsman, what you choose to wear on your wrist speaks volumes about who you are. *The World's Most Expensive Watches* presents some of the most extravagant, intricate, collectible, decadent, or just plain interesting modern-day timepieces that sit at the top of the price spectrum. Starting at a threshold price of about \$200,000, it is a trip through the last decade or so of watches whose values soar incredibly to prices of \$5 million dollars or more. Additionally, there is a selection of notable watches that yielded extremely high prices at auction - many of which are historically relevant. A stunning collection that is both informative and entertaining; with detailed descriptions of individual watches and articles that usefully deconstruct the price tag with an explanation of the relevance of craftsmanship and complexity of design, as well as the importance of exclusivity, prestige and collectibility. Prepare to be impressed by a larger-than-life look at some relatively small items that command not only huge prices but kudos and respect, in all areas of a global society fascinated with using accessorizing to create identity.

In a new book, *The World's Most Expensive Watches*, Ariel Adams showcases 102 mens watches that have sold for up to \$5 million. (The Wall Street Journal, November 26, 2014) About the Author Ariel Adams is an internationally recognized watch expert and writer. He is the founder and editor-in-chief of the online magazine [aBlogtoWatch.com](http://aBlogtoWatch.com), and regularly contributes to or is quoted in major news and lifestyle publications around the world.
