Third Reich Belt Buckles: An Illustrated Handbook and Price Guide (Schiffer Military History)

Bob Evans : Third Reich Belt Buckles: An Illustrated Handbook and Price Guide (Schiffer Military History) before purchasing it in order to gage whether or not it would be worth my time, and all praised Third Reich Belt Buckles: An Illustrated Handbook and Price Guide (Schiffer Military History):

0 of 0 people found the following review helpful. Five StarsBy CustomerNice clean book great information a PLEASURE

If you collect any type of World War II militaria you will sooner or later come across a Nazi buckle. If you are fascinated by the artwork and the quality of construction or you want to know what it is worth, you need this book for your militaria library. This book will help you in many ways: tells you the approximate value of the buckle in today's militaria market; what organization it was used by; when and who made it; detailed photographs help you determine whether the buckle is an original or a reproduction; unlike other belt buckle books measurements are provided in inches rather than in decimals; provides research sources for more detailed study. Prices of Nazi belt buckles have risen dramatically over the past five years due to a limited supply of original buckles. This book opens the door to a fascinating militaria collectible with a most remarkable history.
