Time

David Glover, Jon Barnes, Andrew Haslam : Time before purchasing it in order to gage whether or not it would be worth my time, and all praised Time:

A unique blend of imaginative activities, experiments, and science facts helps develop scientific thought. This mix of hobby and science teaches kids to observe, collate information, and reach conclusions. Teaches scientific principles through the hands-on process of making science work. An invaluable science series for school and home.

"There is a clean neat appearance to the series...will encourage children to try their hand at making it work." --
Booklist
