Very pretty!By Don IversonThis book contains many glossy, full color pictures of the weapons and armor contained in the Kremlin, along with a short summary of the history of each item. It is fascinating reading for those who are interested in the arms and armor used by Russian royalty in the past.

The book would make a great addition to the reading material on your coffee table!

The Armory Chamber, a part of the Moscow Kremlin historical and cultural complex, is the oldest museum in Russia.

Its collection consists of the rarest productions of Russian and foreign masters, a trove of weapons and equestrian equipment. This lavishly illustrated, full-color book is sure to appeal to those who value fine craftsmanship and seek

deeper insight into the great struggles and conflicts of the past.
